

Cleaners

Product Name	Type	Appearance	Color (ASTM)	Viscosity (40) mm ² /s (cSt)	Flash Point ()	Water Displacement Performance	Characteristic · Application
DRY CLEANER A	Hydrocarbon	Clear liquid	L0.5	1.0	50	-	Cleans insoluble metalworking fluids on nonferrous metals and steel materials after machining.
DRY CLEANER B	Hydrocarbon	Clear liquid	L0.5	1.3	63	-	Cleans insoluble metalworking fluids on nonferrous metals and steel materials after machining.
DRY CLEANER WD	Hydrocarbon	Clear liquid	L0.5	1.0	50		Cleans insoluble and soluble metalworking fluids on nonferrous metals and steel materials after machining..
DRY CLEANER WE	Hydrocarbon	Light yellow clear liquid	L0.5	1.0	50		Cleans insoluble and soluble metalworking fluids on nonferrous metals and steel materials after machining..
DRY CLEANER C	Hydrocarbon	Clear liquid	L0.5	2.1	76	-	Cleans insoluble metalworking fluids on nonferrous metals and steel materials after machining.
DRY CLEANER PM	Hydrocarbon	Clear liquid	L0.5	2.2	-		For printing machine. NOT designated as a hazardous material under the Fire Defense Law.
